

DEAR RESIDENT

Special Income Surveys are being mailed to random Mammoth Households.

The Town of Mammoth is conducting a survey to gather essential information from the residents in order to apply for federal grant money.

This grant money funded the two water storage tank improvements and expansion of the Community Center. The proposed project is improvements to the Mammoth water system to reduce line breakage, road damage, service outages and replace inaccurate water meters.

A lack of response to the mailing will require survey takers to visit residences until the survey is completed. All information will be kept strictly confidential. Your names and addresses are separated from the income and family information so there will be no way for anyone to connect the information to your family.

Central Arizona Council of Governments (CAG) will collect and tabulate the information. CAG is bonded and conducts surveys of this nature regularly.

Please answer the questions on the enclosed questionnaire, sign the form and return it to CAG in the enclosed (stamped) self-addressed envelope by April 20, 2018. Additional assistance is available from Alan Urban, CAG Community Development Manager at 480-474-9300. TDD: 711.

Joe Dietz
Mayor
